

Guiding Principles & Standards

The LiFE JWG's governance is anchored by the following regulatory expectations:

- **Board Accountability:** Under the LiST Framework, the Board of Directors of Labuan Financial Institutions (LFIs) must integrate sustainability goals into their core business strategies.
- **Transparency:** Mandatory adherence to sustainability-related disclosures to foster trust and prevent "greenwashing."
- **International Alignment:** Policies are benchmarked against global standards to maintain Labuan's competitive edge as a premier International Financial Centre (IFC).
