

Specialised Sub-Working Groups (SWGs)

To execute the LiFE mandate, the JWG operates through three dedicated sub-working groups focused on distinct technical pillars:

- **Sustainability Product Innovation SWG1:** Focuses on creating Carbon Credit Trading frameworks and Global Tokenised Sukuk initiatives.
- **Governance and Risk Oversight SWG2:** Responsible for strengthening climate risk management and aligning Labuan entities with the Labuan IBFC Sustainability Taxonomy (LiST).
- **Capacity Building and Outreach SWG3:** Leads ESG Awareness Programmes and human capital development to build a future-ready workforce.
